Additional Funding Resources and Announcements

Fiscal Year 2019 Out of School Time Requests for Proposals. The Office of the Deputy Mayor for Education (DME) announces the release of the Out-of-School-Time (OST) Requests for Proposals (RFP). Learn24, located in the Office of the Deputy Mayor for Education (DME), is a citywide initiative to ensure children and youth ages 5 - 21 have access to quality educational and enrichment activities beyond the regular school day. The DME partners with United Way of the National Capital Area (United Way NCA) to release these RFPs. The School Year 2018-19 OST RFP supports any entity that provides OST programming to apply for up to \$100,000 per application. A new competition, School Year 2018-19 Community Based RFP, supports community based organizations with budgets under \$250,000 to apply for grants up to \$25,000. The DME anticipates, upon selection of the FY19 grantmaking partner, awarding continuation grants to the organizations who currently receive School Year 17-18 grants. These organizations are serving over 20,000 children and youth across the District. Across the three grant opportunities, the DME anticipates funding over 80 organizations and distributing over \$5 million in grants to ensure children and youth have access to quality OST programming during the school year. Click here to access both [RFP's](#). A brief comparison of the two grant competitions may be found [Here](#).

Free Nonprofit Legal Clinic: Understanding the Building Blocks of Good Governance. The D.C. Bar Pro Bono Center is sponsoring a free legal clinic on conflict-of-interest, whistleblower and record retention policies on June 21 from 10:30 am to 12:30 noon. The clinic will be held at Morrison & Foerster, 2000 Pennsylvania Avenue NW. The IRS has requirements regarding conflicts of interest and public disclosure of your tax filings, while the D.C. Nonprofit Code requires a nonprofit to maintain certain corporate records. Often, a Board adopts the policies, attaches them to the meeting minutes, and forgets about them. While all Sec. 501(c)(3) organizations should have well-drafted conflict of interest, record retention and whistleblower policies, it is just as important that organizations educate their directors, employees and volunteers about the policies and develop a plan to implement them. At this clinic, you will meet one-on-one with an attorney who will help review and update your nonprofit's whistleblower and record retention policies and your conflict of interest policy and disclosure form. The attorney will also discuss with you the reasons the policies say what they do, and how best to implement them. Finally, the attorney will discuss with you some actions you can take now, so you know how to handle issues when they come up. Contact Lauren Paley at lpaley@dcbar.org to register.

Mentoring Project Grant. The National Mentoring Project (NMP) is a funding and technical assistance opportunity for organizations working with opportunity youth (youth 16-24, not currently in school or employed). The project aims to support more young people on the path to employment. If you are a nonprofit organization in the District of Columbia focused on workforce development, please visit the [website](#) or email Dhorgan@mentoring.org. Grants available up to \$20,000. Inquire by June 1st.

British Council in the USA Active Citizens Funding Opportunity. The British Council USA announces a call for proposals for DC and Baltimore-based community organizations to take part in the 2018-19 cycle of Active Citizens for Young Community Leaders. Three Washington, DC and Baltimore, MD organizations will be chosen to collaborate with the British Council over the next year by being awarded grants of up to \$10,000. Active Citizens is a community-led program for young people interested in growing their understanding of local and global connections and the cultural, social, economic, and political factors that shape their community. Involvement in the Active Citizens program offers a range of opportunities to partners, facilitators, participants and wider communities to develop skills and knowledge to work with people from different cultural backgrounds. Active Citizens in the USA seeks local organizations as its Delivery Partners to project manage and steer the Active Citizens program in their city and identify community members to receive leadership training. Delivery Partners have experience working with a wide cross section of young adults on community-led social action initiatives and have experience designing and facilitating programs that bring about sustainable social impact within a community. They have strong local, regional and/or national partnerships and networks. The Active Citizens Learning Journey involves exploring cultural diversity and its impact in the context of local or national communities in participating countries, with the opportunity to connect globally through sharing learning and ideas through the Active Citizens website and social media. It is important that partners recognize that the vast majority of the Active Citizens programs happen at the local or national level rather than at the international level. Applications and instructions can be found on the [British Council Website](#) and are due on June 4 and must be submitted to Elizabeth.White1@britishcouncil.org.
